

Corporate portfolio

Managing Director: Albrecht, Marcus & Peklo, Otto

Year founded: Thursday, 01.04.2004 A&P Industriemontagen Gbr.

Change of name : Friday, 30.03.2012 A&P Industriemontage GmbH & Co. KG

**Subsidiary
South :** 73249 Wernau, Danziger Str. 20

**Subsidiary :
West** 44149 Dortmund, Spicherner Str. 63

A&P Industriemontage GmbH is your reliable partner for global assemblies

- Plant installation/ - dismantling
- Assembly
- Relocation
- Electrical engineering
- Automation 4.0
- Personal service

Project management

The implementation of complex projects is based on the strict observance of deadlines, services and budgets. Therefore, the realisation process of A&P Industriemontage GmbH & Co. KG relies on a targeted implementation of coordinated and precisely planned projects stages. The local A&P project managers ensure their compliance.

Project control:

- Scheduling
- Capacity planning
- Progress monitoring
- Assembly monitoring

Quality control:

- Assembly control/monitoring
- Welding monitoring/supervision
- Performance test (e.g., pressure test)
- Assembly inspection
- Acceptance test
- Documentation

Contract management:

- Creation/compilation and management of all contracts including revision service

Disassembly and assembly of production plants

Our services include:

- Complete mechanical, hydraulic and electrical disassembly, assembly and new assembly of machines and plants of any kind
- Assembly of complete factory or production plants
- Pre-assembly of portals, production plants, special machines
- Machinery conversions, plant conversions
- Repair measures, modernisation
- Alignment, calibration
- Cleaning
- Production assistance

Services with our competent partners:

- Packaging
- Transport and cargo handling
- Logistics
- Commissioning

Automation partners

HDAO supports leading engineering companies in solving digital challenges in their core business as well as in their conceptual development with a variety of control systems. HDAO provides individual automation solutions with its own switch cabinet construction and electrical installation and utilizes its high expertise in the fields of hardware design and software programming for control technology, which is used automation plants of all kinds. In addition to highly specialized software and electrical engineers, our team also encompasses experienced mechanical designers. Combined with the sound experience of our mechanical technicians, A&P and HDAO can offer complete solutions consisting of both mechanical and electrotechnical components.

Services

- Project planning
- Electrical design
- Switch cabinet construction
- Electrical installation
- Software development
- Robot programming
- Visualisation
- Virtual commissioning
- Commissioning
- Process control systems
- Custom machine construction
- Services in Asia / China
- Retrofit / plant expansion

Relocation of individual machines and machinery as well as relocation planning

A&P Industriemontage also offers the most suitable solution for the relocation and installation of machines and machinery. Our project managers have many years of experience in relocating and installing machines and machinery throughout Germany, Europe and across the globe.

A&P Industriemontage handles the entire relocation process.

- Project management from A-Z
- Documentation
- Analysis of the current condition
- Logistics, logistics planning
- Calculation
- Transport
- Disassembly, packaging
- Reconstruction
- Renovation work, expansions
- Production support
- Customs processing
- Customs processing
- Scheduling the transport route
- Layout outline, drawing, sketch
- Lifting devices/crane services

Interlinking components

A high-performance and efficient conveyor system is an essential basis for the profitability of in-house material flows. We would be pleased to draw on our experience and support you in the following areas:

- Mechanics
- Control
- Assembly
- Connection to sub-systems
- Service and maintenance

We conduct inspections, evaluate the current actual condition and initiate suitable measures to restore the target condition.

Overview of the interlinks

A&P has already mechanically mounted and electronically installed the following interlinking components in the customer order.

Infeed and pick-up conveyor systems

- Ground-level roller conveyor with lifter
- Ground-level roller conveyor without lifter
- Infeed/pick-up roller conveyor
- Infeed/pick-up chain conveyor

Chain conveyor systems

- Chain conveyor
- 3-track chain conveyor
- Plastic segmented chain conveyor

Roller conveyor systems

- Roller conveyor
- Ground-level roller conveyor
- Gravity roller conveyor

Inverters, diverters

- Belt diverter
- Pallet stacker
- Roller junction
- Roller switch
- Pneumatic diverter

Accumulating pallet conveyor

Roller conveyors

- Accumulating roller conveyor
- Live roller conveyor
- SMR conveyor
- Inclined roller conveyor
- Gate
- Roller conveyor
- Curve

Conveyor belts

- Belt conveyor belt
- Bulk material

Steel construction / cabins

You need support for the final assembly of steel construction or cabins?

We do not only take on heavyweights in mechanical construction. We assemble all parts into a complex end product.

Our assembly services include

Steel construction:

- Industrial halls
- Gangways, stages
- Advertising space
- Stairs, railings
- Balconies
- Canopies

Cabins:

- Dust-proof cabins
- Soundproof cabins
- Laser-proof cabins

Technical site service

Early detection of signs of wear and technical defects ensures long-term maintenance of the value of your plant and thus production reliability.

We offer our customers a versatile technical site service to prevent machine or plant failures.

Maintenance/ Repairs

- Single parts
- Assemblies or the entire plant

Production support

- Pre-assemblies
- Quality assurance
- Supply of temporary workers
- Personnel service
- Service contracts
- Permanent contracts

Preventive maintenance

- Inspection

Gobal Project

z.B. USA - Mexiko - Costa Rica - Russland - China - Südafrika - Indien - Thailand - Portugal - Spanien - Frankreich - Niederlande -
England - Schweden - Niederlande - Polen - Slowakei - Nordmezdonien
